Limerick

What is a limerick

A Limerick is poem of the 18th century.

What is/are the origins of Limericks

Limericks come from a city in Ireland named Limerick.

What are the specific rhyming sequences of a limerick?

A limerick contain 5 lines which are organised (by rhymes) as written : AABBA, also the A sentence must contain more syllables than the B.

What makes "à good Limerick"

In my opinion, a good limerick should contain dark humour, but it also must be subtil.

Write a limerick

There once was an English teacher in a chair with great flare,
She was racing with newborns and obviously loose with fair.
But her love for this child,
Was surprisingly wild
To explain her gratitude, she undress his underwear.
